

## PRESS RELEASE

### **Integral Reports Average Daily Volumes of \$53.6 Billion in March 2021**

*March 2021 marked Integral's second highest monthly volumes on record.*

*Attributed to record-breaking growth in volumes on TrueFX.*

**PALO ALTO, California (April 1, 2021)** – Integral ([www.integral.com](http://www.integral.com)), a leading technology company in the foreign exchange market, reported today average daily volumes (ADV) across Integral platforms totaled \$53.6 billion in March 2021. This represents an increase of 6.3% compared to February 2021 and a decrease of 3.6% compared to the same period in 2020.

March 2021 represented the second highest monthly volumes on record for Integral, second only to March 2020 which saw considerable volumes due to the pandemic-induced volatility. The rise for March 2021 follows a recent trend of upward growth in volumes for Integral and is attributed to the increasing activity on TrueFX over the last 6 months.

Reported ADV represents volumes traded across the group's entire liquidity network, including TrueFX™ and Integral OCX™, in aggregate.

Integral's global trading network has been designed to meet the execution needs of the widest variety of FX market participants, including banks, brokers, asset managers, and hedge funds. Our clients leverage the deep and diverse FX liquidity available through our platforms and have the choice to trade any execution style required, all within an integrated environment.
